

## **SPECIAL RESOURCE FOR PARENTS AND STUDENTS**

PRIDE-Omaha, Inc. has a new video available. ***“Spin the Bottle”*** offers a unique opportunity for parents and college-bound students. It depicts the dangers of alcohol use on college campuses, noting that the first six weeks of college life is the most dangerous time for female students. An estimated 1,400 college students die each year in alcohol-related incidents in the United States.

The video offers strategies for students to counter the constant alcohol promotions involved in college life. It challenges young people to take charge of their own lives and not be used by an industry that is manipulating young people.

We recommend parents and students watch and discuss this video together. Small groups of parents and college-bound students might wish to view this video and have discussions following each of the five sections.

Call PRIDE-Omaha, Inc. at 397-3309 to reserve this excellent resource. There is no fee for members.
